BANDWIDTH OUT!

Well.. as some of you may have noticed the website was down yesterday morning, due to lack of bandwidth. I'm afraid we seriously underestimated the amount of trailer downloads.

This is a Good Problem to Have!

We've upgraded the bandwidth and we're ready to go! Download to your hearts content. They're small, so take two and share one with a friend! Enjoy the trailer and other content as it becomes available.

Thanks everyone!
